DEPOT ORDER 5041.3T

From: Commanding General
To: Distribution List

Subj: COMMANDING GENERAL'S INSPECTION PROGRAM

Ref: (a) MCO 5040.6H
(b) NAVMC Directive 1700.23F, Request Mast Procedures
(c) MCO P5060.20 w/Ch 1
(d) MCO P6100.13A w/Ch 1

Encl: (1) Notification of Commanding General's Inspection
(2) Functional Area Grade Sheet Format
(3) Sample CGIP Synchronization Matrix
(4) List of Applicable Billets
(5) Sample Appointment Letter

1. Situation. In 1998, the Marine Corps decentralized its inspection authority and placed responsibility for conducting biennial Commanding General Inspections (CGI) on major subordinate commanders, e.g., the Commanding General (CG), Marine Corps Recruit Depot Parris Island/Eastern Recruiting Region (MCRD PI/ERR). Triennially, the Inspector General of the Marine Corps (IGMC), in the execution of the Commandant's Command Inspection Program (CIP), will inspect the MCRD PI/ERR Commanding General's Inspection Program (CGIP) to report on its effectiveness. Detailed information regarding the IGMC CIP is contained in reference (a). This order assigns responsibilities and provides instructions for the MCRD PI/ERR CGIP, to include the conduct of request mast and reporting of inspection results.

2. Cancellation. DepO 5041.3S.

3. Mission. The MCRD PI/ERR Command Inspector will establish and implement a CGIP in order to promote efficiency, economy, and mission readiness, within subordinate units.

4. Execution

a. Commander's Intent and Concept of Operations

(1) Commander's Intent. Inspections reinforce the importance of mission readiness, evaluate the critical areas essential for mission accomplishment, and serve as a tool for commanders to assess their organizational strengths and weaknesses. Inspections also promote readiness, economy of management, and morale within the command. Accordingly, the CGIP will assess and enhance the ability of the command and subordinate organizations to perform their assigned missions. The CGIP will identify the occurrence or potential vulnerability for fraud/waste/mismanagement, discrimination, sexual harassment, and environmental noncompliance. Finally, the CGIP will provide the CG, the commanders, and staff with an assessment

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

concerning the effectiveness of training, the condition of maintenance and support facilities, and the operational readiness of all organizations and activities inspected.

(2) Concept of Operations. The CGI is a formal inspection conducted biennially to assess and enhance the ability of subordinate commands to conduct their assigned missions. The inspection will be conducted with minimum interference to the normal work and training schedules of inspected organizations.

(a) CGIP Inspections

1. Functional Area Inspections. Will consist of technical inspections of the internal functional areas of the organization. Detailed information is found in coordinating instructions, see paragraph 4c.

2. Officer/Enlisted Uniform Inspections. Will consist of personnel-oriented, non-technical inspections. Events will be planned, coordinated, and conducted by the inspected organization and evaluated by members of the CGIP inspection team.

(b) Sequence of Events

1. The MCRD PI/ERR Command Inspector will identify, organize, and provide training to augment inspectors prior to the commencement of any inspection. Inspectors will obtain and familiarize themselves with Functional Area Checklists (FAC) for each functional area they will inspect.

2. The CG will notify the command to be inspected via a notification of Commanding General's Inspection letter, see enclosure (1).

3. The command to be inspected will prepare the CGIP synchronization matrix per enclosure (3) in order to synchronize points of contact (POC), times, and locations for the conduct of each functional area and officer/enlisted uniform inspection.

(c) Request Mast. Per reference (b), a Request Mast opportunity will be provided to each Marine during the Commandant's Command inspection visits or at other times as agents of the Commandant of the Marine Corps. Reference (b) dictates the process of Request Mast during these visits. Prior to the inspection, the organization to be inspected, and subordinate units will publish a separate Request Mast bulletin and, if possible, provide the Command Inspector with Request Mast packages.

b. Tasks

(1) MCRD PI/ERR Command Inspector

(a) Serve as the principal advisor to the CG on all inspection and Request Mast matters.

(b) Plan, coordinate, and conduct CGIP functional area inspections of MCRD PI/ERR units on a biennial basis.

(c) Evaluate officer/enlisted uniform inspections.

(d) Coordinate, monitor, and evaluate special inspections, as required.

(e) Strive to minimize the number, frequency, and duplication of inspections.

(f) Analyze the inspectors' feedback of their functional areas to identify areas within the command that warrant recognition for superior performance as well as those that are not in compliance with published orders and directives. Provide appropriate recommendations for improvement and analyze the root cause of the problem.

(g) Schedule and conduct the re-inspection of functional areas identified as "non-mission capable" and coordinate the resolution of problems that are beyond the capability of the unit commander to solve.

(h) Conduct training for augment inspectors.

(i) Coordinate Request Mast with the CG and maintain Request Mast files.

(j) Review items of special interest to the CG such as fraud/waste/mismanagement, sexual harassment, discrimination, and hazing.

(k) Establish and maintain a program to monitor the completion of corrective actions taken to remedy findings noted in inspection reports.

(l) Maintain current copies of the IGMC FACs for use in conducting the CGIP.

(m) Establish a program to recognize individual Marines, Sailors, civilians, and commands for excellence demonstrated during inspections.

(n) Prepare CGIP reports and maintain inspection files.

(2) Commanding Officers, Recruit Training Regiment (RTR) and ERR Recruiting Districts

(a) Design and implement a CIP in accordance with this order and reference (a). Publish appropriate directives.

(b) Conduct annual inspections of your assigned battalions/recruiting stations within the Headquarters Elements (i.e., S-1, S-3, S-4, etc.) using the IGMC FAC as a guide. Retain such reports on file for a minimum of two years.

(c) Establish and maintain a program to monitor the correction of findings identified during the inspection of your subordinate commands.

(d) When notified of an impending CGI, complete enclosure (2) to coordinate times, dates, locations, and POC for each functional area.

(e) Plan and execute officer/enlisted uniform inspections.

(3) Assistant Chiefs of Staff (AC/S)/Officers-in-Charge, and Special Staff Sections

(a) Enclosure (4) contains the list of applicable billets for the subject matter experts. Appoint the primary and alternate personnel via an appointment letter to inspect the functional areas under your cognizance. A sample appointment letter is exhibited in enclosure (5).

(b) Review FAC prepared by inspectors assigned from your staff section and, when appropriate, provide comments/recommendations to the MCRD/ERR Command Inspector.

(c) Coordinate and supervise special inspections of functional areas under your cognizance.

(d) Use FACs during CGIP functional area inspections. Current copies of FAC's for the functional areas that are inspected as part of the MCRD/ERR CGIP are available at <https://www.hqmc.marines.mil/igmc/Resources/Functional-Area-Checklists/>.

(e) Each AC/S is to be informed and involved in the readiness of MCRD/ERR commands. If inspection results reveal significant findings that are beyond the ability of a unit commander to correct, the AC/S exercising cognizance over the functional area will be prepared to brief the CG on the measures required to correct the findings and, if applicable, the assistance the staff section is able to provide.

(4) Functional Area Inspectors (FAI)

(a) You are a direct representative of the CG when conducting inspections. Conduct inspections as directed and in accordance with published schedules or bulletins.

(b) Be thoroughly familiar with applicable directives, instructions, references, regulations, policies, and procedures pertaining to the functional area being inspected.

(c) Use FACs when conducting inspections. Provide recommended changes to FACs to the MCRD PI/ERR Command Inspector.

(d) Conduct inspections in a positive and constructive manner. Be courteous and make every effort to affect improvement within the inspected organization. Remain mindful of each inspected command's unique mission, resources, and operating environment.

(e) Identify the root cause of problems, vice only symptoms. In particular, identify issues that are beyond the capability of the unit commander to resolve.

(f) Foster a climate of trust and confidence by ensuring a positive, productive learning experience.

(g) Always respect and reinforce the unit commander's authority.

(h) Recognize excellence by identifying individual names, sections, etc., in your inspection results.

(i) Provide a verbal report of your inspection to the MCRD PI/ERR Command Inspector prior to the CGI out brief.

(j) Thoroughly familiarize yourself and comply with the grading criteria.

(k) Attend training provided by the MCRD PI/ERR Command Inspector.

(l) Answer every question on the FAC. Yes, No, N/A, are not acceptable answers. Provide a valid statement for each question.

(m) Assignment of the final grade (Mission Capable/Non-Mission Capable) is the prerogative of the individual inspector.

(n) Prior to assignment of a Non-Mission Capable grade, the inspector will consult with the principal or special staff officer exercising cognizance over the functional area and the Command Inspector.

(o) Submit the completed FAC signed by both the augment inspector and principal or special staff officer exercising cognizance over the functional area to the MCRD PI/ERR Command Inspector as directed.

c. Coordinating Instructions

(1) Biennial Inspections Cycle. CGIs for MCRD PI/ERR Commands will be conducted biennially.

(2) Special Instructions for the RTR. Drill Instructors assigned to recruit training battalions (i.e., not on quota) and canvassing recruiters are exempt from participating in the CGI. Participants for officer/enlisted uniform inspections will include all other Marines assigned to the regimental headquarters and its subordinate battalions.

(3) Enlisted Uniform Inspection

(a) Enlisted personnel will participate in this event and form in a line of platoons. At a minimum, 25 percent of available Marines for each grade will be inspected.

(b) The prescribed uniform will be the Service "A" with ribbons and badges (no nametags). Females will wear skirts, garrison caps, and oxford shoes. Identification cards (ID) will be carried by all personnel in the left breast pocket. All personnel will wear ID tags.

(4) Officer Uniform Inspection

(a) At a minimum, 25 percent of available officers for each grade are eligible to be chosen for this inspection. The unit commander will designate which officers will stand the inspection. The MCRD PI/ERR Command Inspector will prescribe the uniforms for the inspection. ID will be carried by all personnel in the left breast pocket. All personnel will wear ID tags. The command should expect to be inspected in a sampling of all uniforms that officers are required to maintain (Utilities, Service, Blue Dress, and Evening Dress). To preclude excessive uniform changes, officers serving as inspectors will remain in the uniform of the day for MCRD PI commands, Blue Dress "C" or "D" for recruiting districts.

(b) Inspectors will use Marine Corps Total Force System (MCTFS) "AWDS" and "WPNS" screens to verify information during this inspection.

(5) Close Order Drill (COD).

(a) The command to be inspected will organize one platoon to conduct COD. The utility uniform will be worn and platoon members will not be equipped with weapons or 782 gear.

(b) The Platoon Sergeant will conduct the first phase of drill using one of four drill cards selected by the COD evaluator. A different platoon member will conduct the second phase of drill using a different drill card. All movements will be performed in accordance with reference (c).

(6) Color Guard. The color guard will be evaluated in the Service "C" uniform (Blue Dress "D" for recruiting districts) and commence with the inspection of movements in accordance with reference (c).

(7) Physical Fitness Test (PFT) and Combat Fitness Test (CFT). Depending on the season, the command to be inspected will organize and conduct the PFT or CFT with a minimum of 25 percent of available personnel in each grade in accordance with reference (d). The uniform will be designated by the unit commanding officer. Monitors needed to conduct the PFT or CFT will be designated in writing by the commanding officer.

(8) Battle Skills Training. Although a practical test will not be administered; all Marines will be asked general knowledge questions during each uniform inspection event. These questions will be used to provide the commander with an indication of Marine Corps Common Skills knowledge within the organization.

(9) Criteria for Participating in Officer/Enlisted Uniform Inspections. All available Marines within the organization will be eligible to participate in officer/enlisted uniform inspections based upon the following attendance criteria as guidance:

(a) Marines in a duty or watch status shall not participate in the inspection.

(b) Commanding Officers (COs) may exempt Marines who joined their organization less than 30 days prior to the inspection.

(c) COs may exempt Marines who are scheduled to transfer by Permanent Change of Station (PCS) or End of Active Service (EAS) within 30 days of the inspection.

(d) COs may exempt Marines approved for annual leave prior to announcement of the inspection schedule. Only under unusual circumstances should commanding officers approve annual leave after announcement of the inspection.

(e) COs will determine the level of participation by Marines based upon their duty status.

(10) Special Inspections. Outside agency inspections are classified as "special" inspections. Special inspections are normally scheduled and conducted as required. Cognizant staff sections will coordinate special inspections of activities under their purview and inform the MCRD PI/ERR Command Inspector of their scheduled occurrence. Copies of all inspection

results shall be made accessible to the MCRD PI/ERR Inspector for awareness, review, and oversight.

(11) Separate Inspection Programs. Inspections conducted by MCRD agencies on a recurring basis that are not part of the CGIP are termed "separate" inspections. Copies of all inspection results shall be made accessible to the MCRD PI/ERR Inspector for awareness, review, and oversight.

(12) Inspection Notification and Reporting

(a) Unless specifically authorized by the CG, of the MCRD PI/ERR Command Inspector will provide a minimum of 48 hours advance notice to the inspected unit to affect mutually agreeable arrangements for each inspection.

(b) Employing the grading criteria provided in the Administration and Logistics section, inspectors will use applicable updated FACs to inspect designated commands and report their findings to the MCRD/ERR Command Inspector.

(c) The MCRD PI/ERR Command Inspector will review all FACs and indicate concurrence or non-concurrence with the overall rating of mission capable or non-mission capable. A unit inspection report will be prepared for review by the Commanding General and provided to the inspected unit commander within 14 days after completion of the inspection. The MCRD PI/ERR Command Inspector and inspected unit commanders will retain a copy of unit inspection reports for a period of at least two years.

(d) Within 30 calendar days following issuance of the unit inspection report, inspected unit commanders will provide the MCRD PI/ERR Command Inspector with a written report of corrective actions completed or undertaken to remedy all functional area findings.

(e) For any functional areas evaluated as non-mission capable, the MCRD PI/ERR Command Inspector will coordinate with the inspected unit commander to schedule a re-inspection of that functional area within 60 calendar days following issuance of the unit inspection report. Such re-inspections will be in addition to, not in lieu of, other inspections. A separate report will be submitted indicating the results of each re-inspection. Re-inspections will continue every 60 calendar days until the functional area is evaluated as mission capable.

(13) Assist Visits. All assist visits are coordinated through the staff principal exercising cognizance of the functional area(s) to be evaluated and approved by the MCRD PI/ERR Command Inspector. Personnel assigned as primary/alternate CGIP inspectors will conduct assist visits using criteria delineated in applicable FACs.

5. Administration and Logistics. Recommendations concerning the contents of this order are encouraged and invited. Recommendations should be submitted to the Commanding General (Attn: CI MCRD PI/ERR).

a. Grading Procedures

(1) Each functional area will be evaluated using the standard IGMC FAC, which contains applicable questions. An overall grade of Mission Capable or Non-Mission Capable will be assigned to each functional area. Discrepancies and findings will be noted on the FAC.

(2) Inspections will be unbiased and graded on the unit's compliance to the appropriate order/directives.

b. Grading System Definitions

(1) Mission Capable. The organizational/unit possesses and uses the requisite skills, equipment, personnel, and understanding to accomplish its assigned mission, tasks, and functions.

(2) Non-Mission Capable. The organization/unit does not possess or does not use the requisite skills, equipment, personnel, and understanding to accomplish its assigned mission, tasks, and functions.

(3) Discrepancy. An error or failure to comply with guidance, direction, or action as required in appropriate and applicable directives. A **repeat discrepancy** in two consecutive CGI biennial inspections could result in a finding.

(4) Finding. A significant problem within the organization which:

(a) Detracts from the organization's readiness.

(b) Involves or could lead to fraud, waste, and mismanagement.

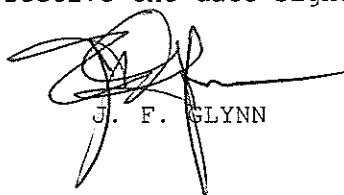

(c) Involves issues of health, morale, or welfare of the unit's Marines or Sailors.

(d) Significantly deviates from higher headquarters policies and procedures. A **repeat finding** in two consecutive CGI biennial inspections will normally result in the organization/unit being assigned as Non-Mission Capable.

6. Command and Signal.

a. Command. This order is applicable to all commands and personnel aboard MCRD PI/ERR.

b. Signal. This order is effective the date signed.

J. F. GLYNN

Notification of Commanding General's Inspection

UNITED STATES MARINE CORPS
MARINE CORPS RECRUIT DEPOT/EASTERN RECRUITING REGION
PO BOX 19580
PARRIS ISLAND, SC 29905-9580

IN REPLY REFER TO:
1000
CI
DATE

From: Commanding General, Command Inspector
To: Commanding Officer, (Unit Inspected)

Subj: NOTIFICATION OF A COMMANDING GENERAL'S INSPECTION (CGI) (DATE)

Ref: (a) MCO 5040.6H Marine Corps Readiness Inspection and
Assessments
(b) DepO 5041.3S Commanding General's Inspection Program (CGIP)

Encl: (1) CGIP Synchronization Matrix

1. BACKGROUND: The Commanding General of Marine Corps Recruit Depot/Eastern Recruiting Region (MCRD/ERR) has directed the Command Inspector to inspect the (Unit Inspected) to assess the commands ability to perform its assigned mission. Per ref (B), the Command Inspection team will conduct the CGI at your command on (Date). This inspection is designed to enhance and develop policies, processes, and procedures to ensure mission readiness.

2. PURPOSE: Provide the commander with an unbiased and objective assessment of the unit's mission readiness and evaluate its organizational strengths and weaknesses.

3. OBJECTIVES: This inspection should provide a clear benefit to the units overall mission readiness while promoting the following:

- a. Compliance with established orders and directives.
- b. Identification of positive and negative trends.
- c. Enhancement of Marine Corps ethos.
- d. The moral and welfare of Marines and Sailors.

4. INTENT: The Command Inspector will use a systematic inspection methodology to evaluate all relevant functional areas listed in the Inspector General of the Marine Corps Functional Area Checklists. The CGI covers both technical and officer/enlisted uniform inspections that will be conducted with minimal disruption to ongoing training and operations.

5. OVERVIEW: The CGI is a three day focused event that will start with a formal in-brief and conclude with a formal out-brief. The results of this CGI will be contained in a written inspection report distributed to the Commanding Officer following the Commanding General's review of the results. A detailed inspection plan for the CGI will be published by the Command Inspector following the commands completion of the information found in encl (1). This

separate correspondence will outline the relevant functional areas and assign tasking to ensure smooth execution during the inspection.

Notification of Commanding General's Inspection

Subj: NOTIFICATION OF COMMANDING GENERAL INSPECTION (CGI) (Date)

6. TASK: Upon receipt of this notification, complete the following:

a. Complete and submit the enclosed Synchronization Matrix to the Command Inspector NLT (Date).

b. Ensure all relevant functional areas within the command are notified and prepared for the CGI.

7. Point of contact is the Command Inspector, Colonel Brown or Master Sergeant Stevens at DSN 335-3086/4597 or commercially at (843) 228-3086/4597.
