## Peak Moving Season is Here: How to Handle Hazardous Waste and Recyclables

To avoid potential risks associated with household hazardous wastes, it is important to always monitor the use, storage, and disposal of products with potentially hazardous substances. Improper disposal of hazardous waste includes pouring them down the drain, on the ground, into storm sewers, or in some cases putting them out with the regular trash. Improper disposal pollutes the environment and poses a threat to human health.

### HOUSEHOLD HAZARDOUS WASTE AND RECYCLABLES COLLECTION DATES:

**JUNE 16** \*      **JULY 14** \*      **AUGUST 18**  
**1000 – 1200**
